# FITNESS REQUIRED

We recommend jogging as the best routine to get fit for a trek. It works on the same muscles that you use while trekking – your calves, glutes and hamstrings. It helps increase your stamina day by day. It is also an easy routine that does not require any equipment or tools.

## **Fitness target:**

To do this trek comfortably, you must be able to cover 5 km in under 35 minutes. This is the minimum fitness required for this trek.

How to achieve this fitness?

- Start jogging at least 4 days a week
- If you cannot run 5 km immediately, start with 2 km and increase to 5 km over 2-3 weeks.
- Once you're able to run 5 km, increase your pace day by day.
- Gradually increase your pace and bring it down to 5 km in less than 35 mins.
- You must be able to run 5 km in 35 mins consistently for at least 2 weeks before the trek.

This trek requires at least 6-8 weeks of preparation. The longer, the better. So plan your trek soon and start preparing.
